CITY CHECK, GETS CHECK FOR \$40,000

Back Taxes From Georgia Railroad—Make New Finance Sheet to Reduce Deficit.

The October appropriation sheet for the city of Atlanta has been held up. Vetted by the mayor?

It is all because of a \$40,000 check for money that could not get. The check was received by the city attorney from the Georgia Railroad and Banking company for back taxes.

The mayor has called the finance committee of council to meet in a special session Wednesday morning to hear the good news and to revise the October appropriation sheet to meet the unexpected windfall.

This stroke of municipal good luck came at a time when the city was facing a deficit of over \$100,000, and when nearly all the departments were asking for money they could not get.

The check, which is for \$40,000, was received by the city attorney from the Georgia Railroad and Banking company for back taxes.

This is how it all came about. The Georgia Railroad and Banking company had been paying back taxes to the city of Atlanta for many years.

Club Women Will Entertain Boys and Girls of Georgia

Two thousand boys and girls, members of the Boys' Corn Clubs and the Girls' Canning Clubs of Georgia, are confidently expected as guests of Atlanta during the Southeastern Fair and Harvest Festival in November.

The chamber of commerce in correspondence with the clubs in every district is counting upon that many, and in response to the request of the chamber, the City Federation of Women's Clubs has consented to act as hostesses for this army of young people, providing them with homes during their stay in Atlanta.

City Federation as Hostesses.
Mrs. Samuel B. Lumpkin, president

of the city federation, announces this plan, and notifies the many thousand women composing the organization that this pledge has been made.

Arrangements are being effected for a supervisor to accompany every group of girls and of boys from every district, and these groups will be assigned homes in the same neighborhoods or on the same streets, that the supervisors may more easily reach their charges.

The hostesses, therefore, will have the responsibility of the young people only in their homes, and the history of the former visits of these same boys and girls is that they have been found most compensating guests, interesting as well as appreciative.

From 600 to 800 girls and from 1,000

to 1,200 boys may gather to report the extent of their valuable industry, to exchange ideas and to receive instruction as to a usefulness still more substantial.

The hospitable responsibility of Atlanta women is, therefore, formidable. But their civic pride, their willingness in every patriotic movement, and long since proven, and their answer to the present call, in fact, they will be as adequate as it has been always.

"A Sure Thing"

In the creation and formation of coal, our Jellico got the best of the "shuffle." Its better quality, therefore, than any other is a natural condition and a fixed fact. Its established value is 25 to 50 cents per ton greater than any other. So when you buy our real Jellico coal at the same price as the other kind (and you can), you save that much and get the satisfaction no other gives.

The Elegance in a Chest of Hand-Hammered Silver

We have an exclusive showing of this material de luxe and nothing more desirable will be introduced anywhere for the fall weddings.

Its substantial superiority is indicated in the fact that the hand process must be done on extra weight of silver.

Master designers give it artistic distinction.
